

Our Future
LEARNING CENTER

A place that helps children
brighten **Our Future**

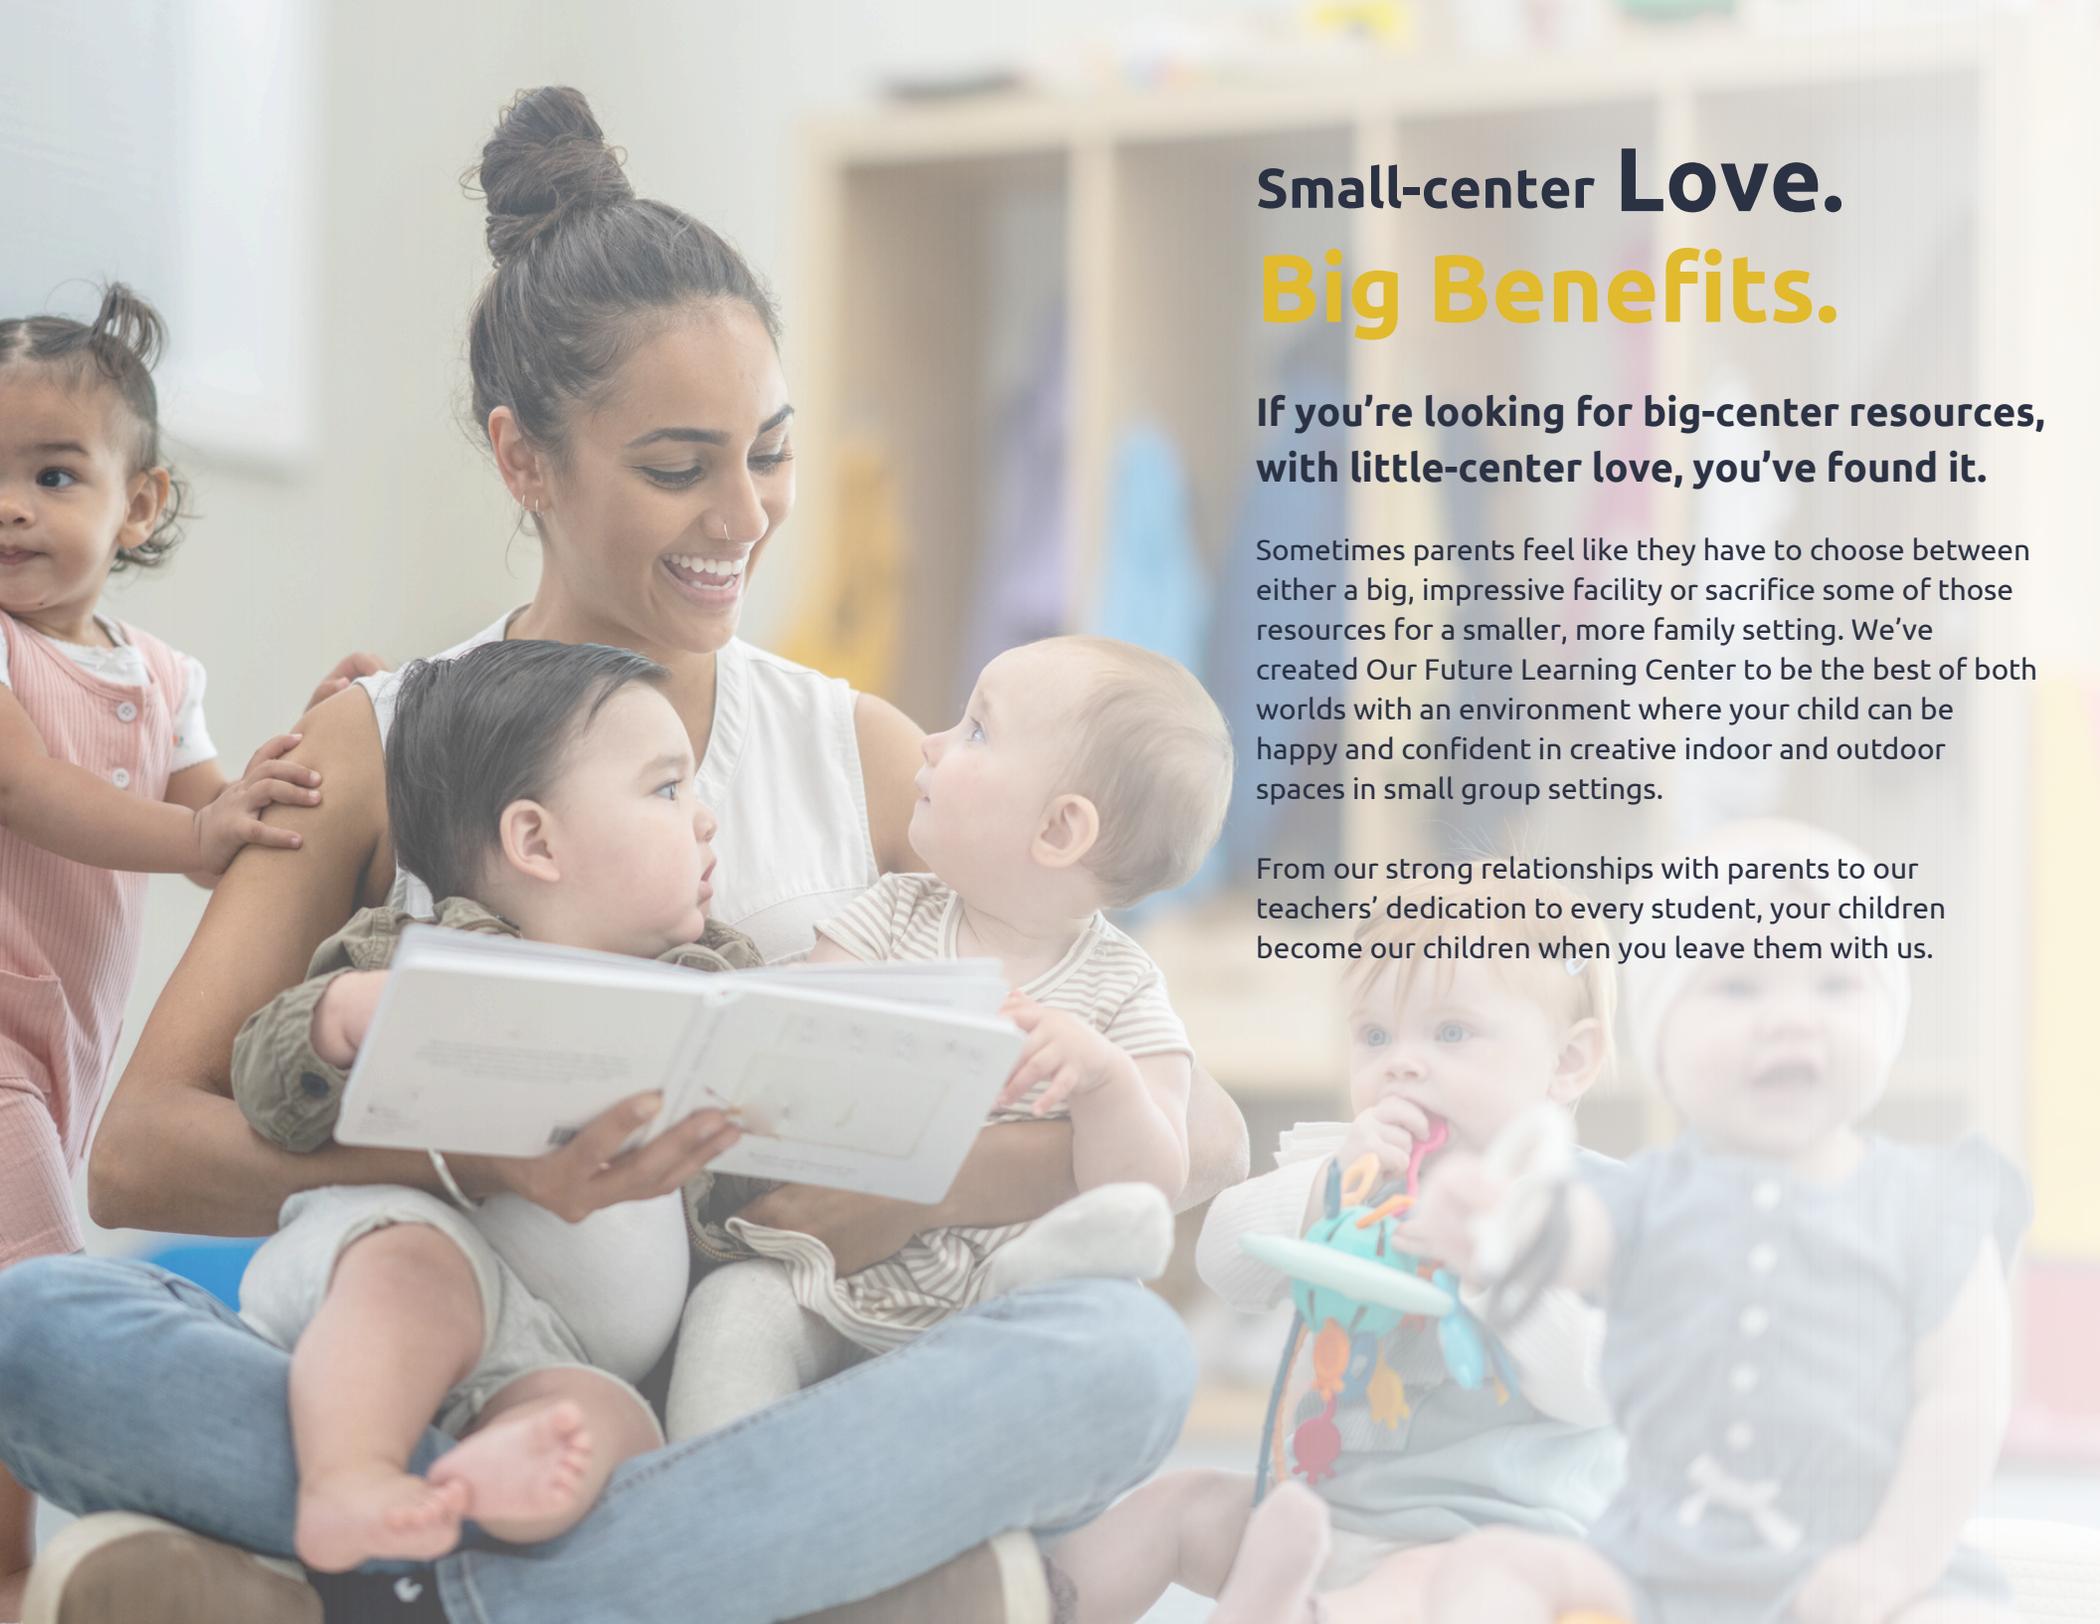

One Step Inside and You'll Feel Welcome.

**Our goal is happy, confident,
enthusiastic children.**

At Our Future Learning Center we focus our energy on building a place where kids can come every day knowing they can get the love and support they need to live a happier, more confident and enthusiastic life.

From the teachers we hire to the types of activities and lessons we teach, we keep this goal at the heart of everything we do. Because we want "Our Future" to be full of individuals who are ready to confidently take on the world.

Small-center **Love.** **Big Benefits.**

If you're looking for big-center resources, with little-center love, you've found it.

Sometimes parents feel like they have to choose between either a big, impressive facility or sacrifice some of those resources for a smaller, more family setting. We've created Our Future Learning Center to be the best of both worlds with an environment where your child can be happy and confident in creative indoor and outdoor spaces in small group settings.

From our strong relationships with parents to our teachers' dedication to every student, your children become our children when you leave them with us.

Welcome to Our Family.

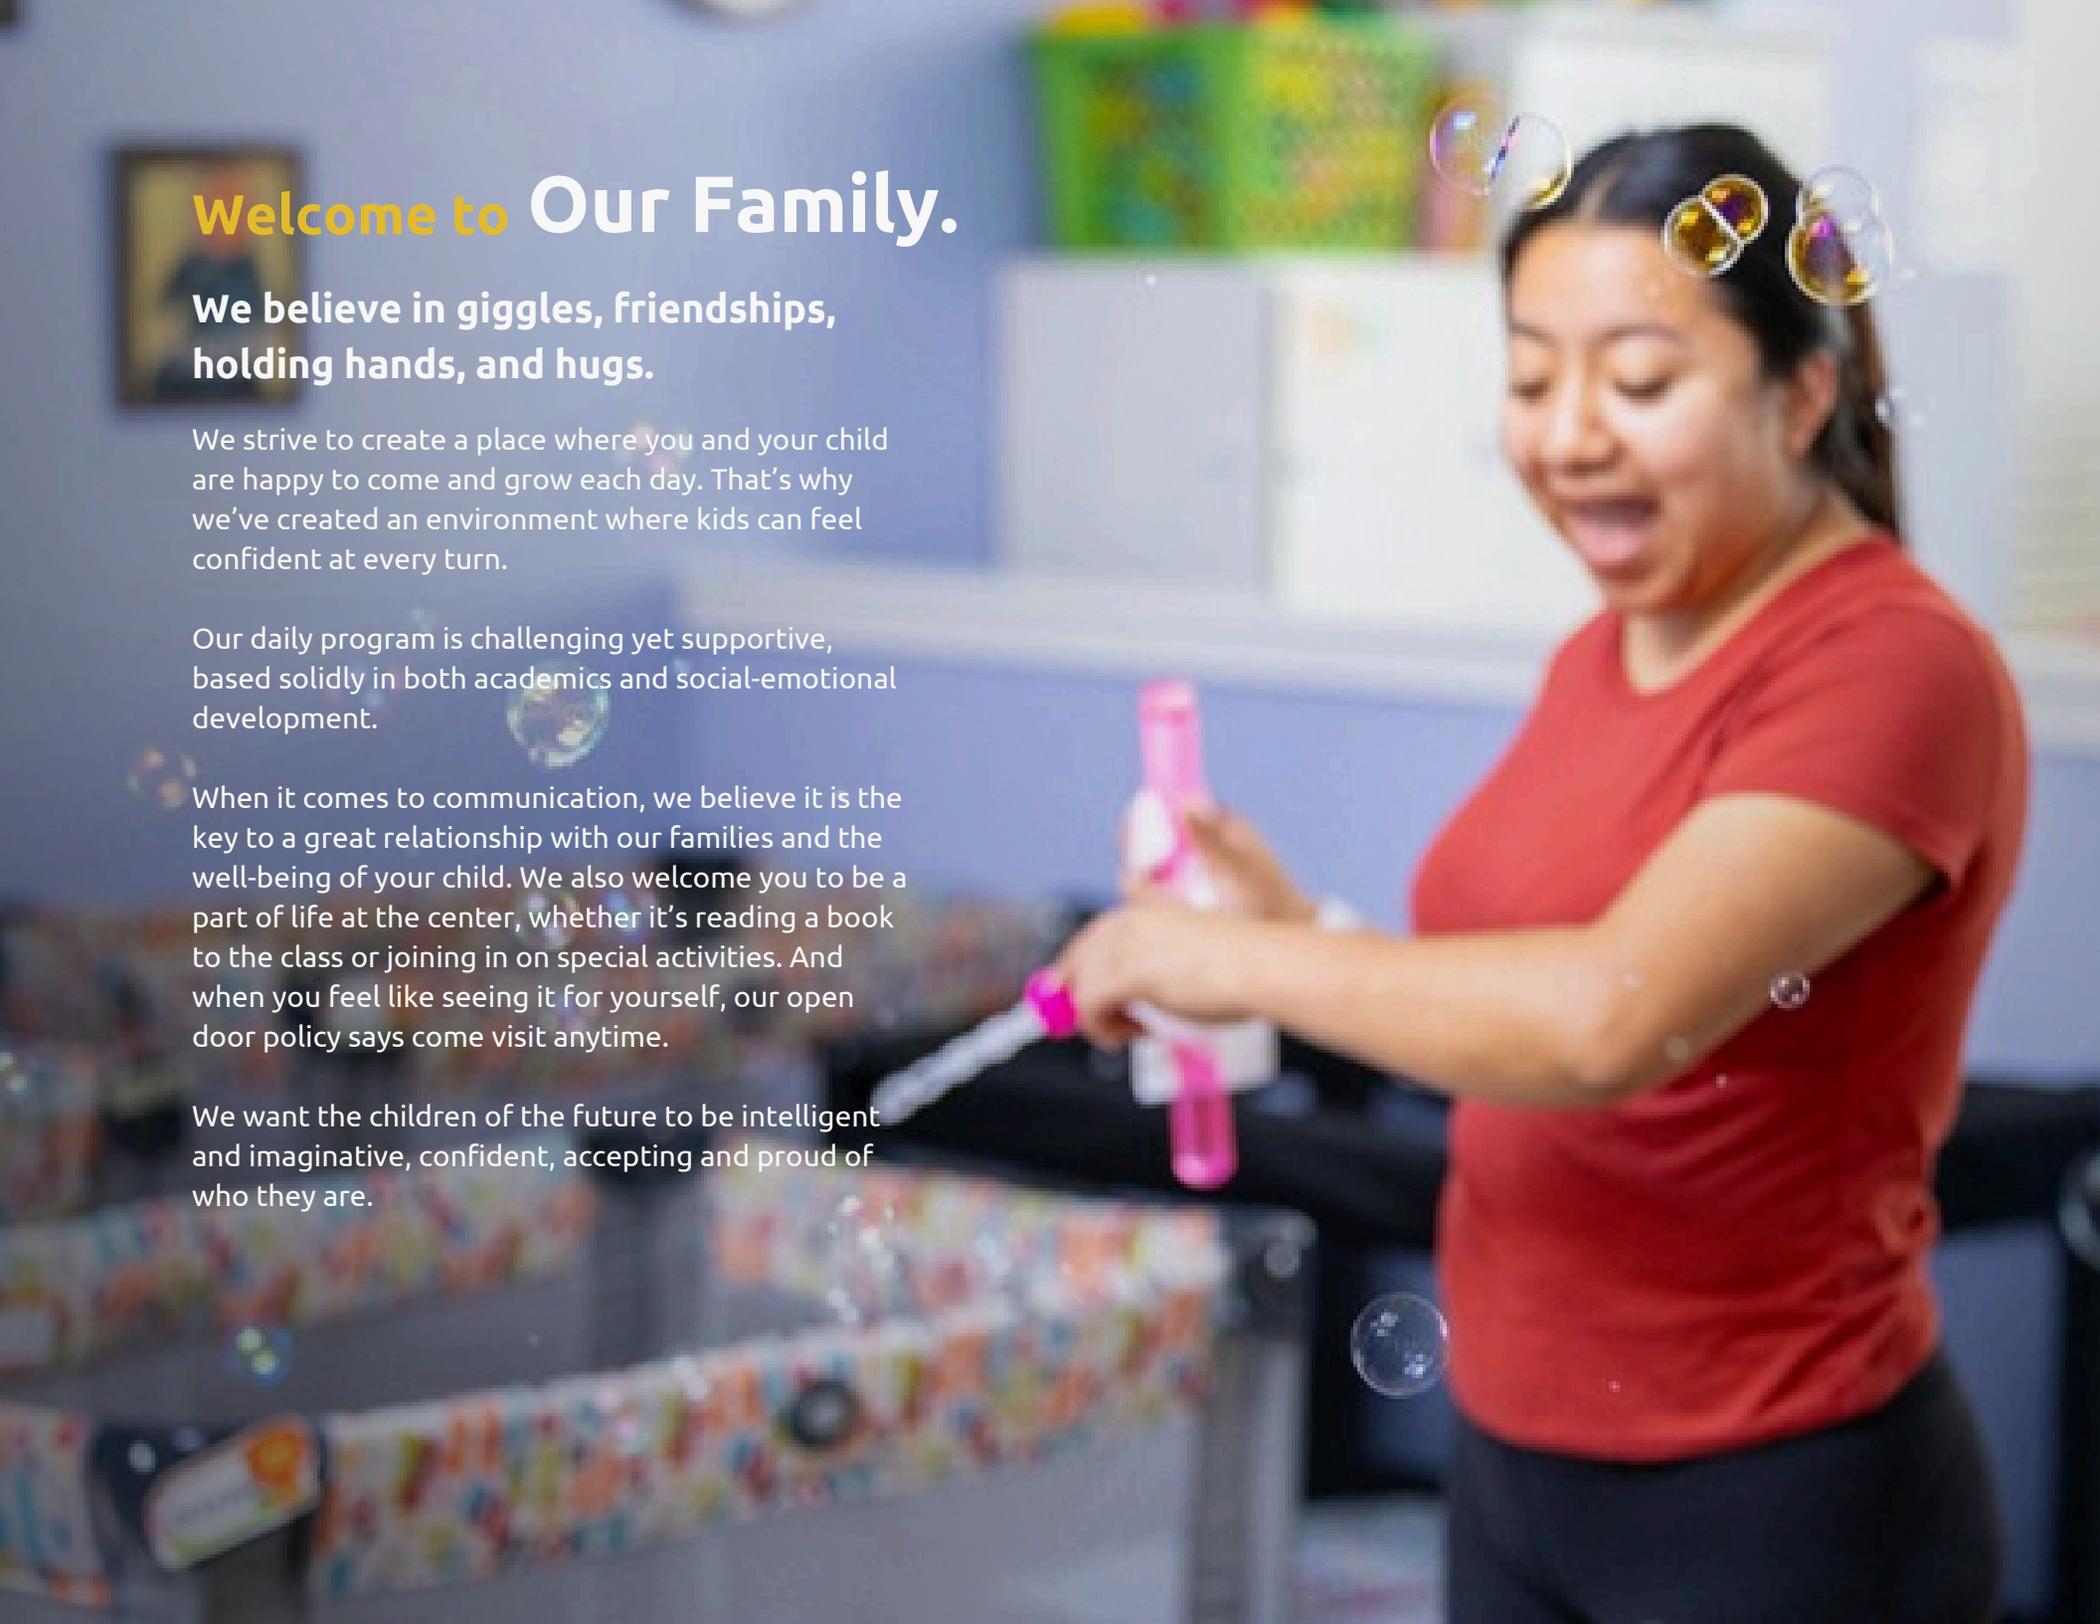

We believe in giggles, friendships, holding hands, and hugs.

We strive to create a place where you and your child are happy to come and grow each day. That's why we've created an environment where kids can feel confident at every turn.

Our daily program is challenging yet supportive, based solidly in both academics and social-emotional development.

When it comes to communication, we believe it is the key to a great relationship with our families and the well-being of your child. We also welcome you to be a part of life at the center, whether it's reading a book to the class or joining in on special activities. And when you feel like seeing it for yourself, our open door policy says come visit anytime.

We want the children of the future to be intelligent and imaginative, confident, accepting and proud of who they are.

Helping Children Grow With Confidence.

At Our Future Learning Center, we believe children thrive when they feel safe, respected, and truly seen. That's why we focus on helping children understand their feelings, build strong friendships, and express themselves with confidence.

Emotional Development

Our teachers gently guide children as they navigate big emotions, helping them name their feelings and find healthy ways to work through them. In our classrooms, friendships bloom as children learn how to cooperate, show empathy, and solve problems together.

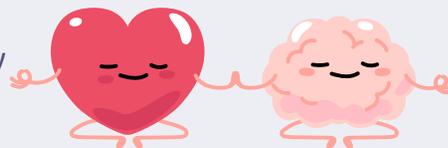

Friendships & Social Skills

We also help children build confidence and independence by encouraging them to make choices, think through problems, and try again when things don't go as planned. Through simple mindfulness practices - like deep breaths, calming moments, and even a bit of yoga - we give children tools to self-regulate and feel in control of their emotions.

Confidence & Independence

With patience, respect, and lots of encouragement, we help every child build the social and emotional skills they need to navigate the world with confidence and kindness.

Mindfulness & Self-Regulation

Infant & Toddler Care

The Best Start in Life.

Our Infant and Toddler Program is all about warmth, comfort, and connection, giving your little one a safe, loving place to grow every day. We follow your child's home routine as closely as possible, so their day at school feels familiar and reassuring.

Language and sensory play fill our days - sign language, storytelling, music, and hands-on exploration spark curiosity and support early development. Tummy time, gentle movement, and lots of cuddles help babies build the strength and confidence they need for crawling, walking, and all the exciting milestones ahead.

With small group sizes and lots of one-on-one attention, our nurturing teachers build strong bonds with each child, helping them feel safe, loved, and ready to explore the world around them. Add in dedicated sleep areas and daily updates through Procure Connect, and you'll always know your little one is in caring hands.

Our Guided Learning Program Lets Children Learn At Their Own Pace.

We believe learning happens best when you're allowed to experiment, make mistakes, and get loving support if it doesn't work out.

Inspiring Curiosity & Creativity

At OFLC, we believe learning should feel like an adventure: full of curiosity, creativity, and hands-on fun. Our STEAM and enrichment programs give children the chance to wonder, build, create, and explore, turning every day into an opportunity to discover something new.

From exciting science experiments to early technology and problem-solving games, we introduce big ideas in a way that's just right for little hands and growing minds. Music, movement, and art fill our classrooms with creativity, giving every child a chance to express themselves, find their rhythm, and bring their imagination to life.

Whether they're building with blocks, painting a masterpiece, or dancing to their favorite song, learning at OFLC is all about exploring the world with confidence, curiosity, and joy.

A young girl with dark hair in pigtails, wearing a pink sleeveless dress and pink sandals, is riding a blue tricycle. She is positioned on the left side of the frame, facing away from the camera. The setting is a large, bright indoor space with a light-colored wooden floor. In the background, there is a red brick wall and a large window with multiple panes, through which some greenery is visible. The overall atmosphere is bright and open.

Every Day Deserves Time to Bounce Around.

**Plenty of space for running,
playing & making new friends.**

Kids need space to move, explore, and let their imaginations run wild. Whether they're giggling, playing house, or dancing around, that's why our indoor gym is such a special part of our school. Fully equipped with age-appropriate structures, mats, and toys, it gives every child the chance to climb, jump, and play no matter what the New England weather brings.

Your Child's Happiness is Our Main Lesson Plan.

Our teachers goal is for your child to be happy, confident and enthusiastic about life. This guides everything they do in the classroom. Whether it's free play or a formal lesson, our teachers plan each day to help your child grow socially, academically and emotionally.

We want you to feel that you can come in, stop by or read a book to the class any time you wish.

A Team of **Highly** Trained Educators.

At Our Future Learning Center, our teachers are the heart of everything we do. They're more than caregivers. They're mentors, role models, and lifelong learners who bring warmth, creativity, and care into every moment of your child's day.

Every OFLC teacher holds the state-required certifications from the Massachusetts Department of Early Education and Care (EEC) and takes part in weekly training to keep learning fresh and inspiring. From child development to creative teaching techniques, our teachers are always growing right alongside your little ones.

To make sure every classroom feels just right, our directors visit each room regularly to offer support and guidance. And because safety comes first, every team member is First Aid and CPR certified, with ongoing training in health, safety, and emergency care.

We always take great care of our teachers so they can take great care of your children.

Stay Connected With Procare.

We know how much you want to be part of your child's day, even when you can't be there. That's why we use Procare Connect, our parent app that brings the classroom right to your phone. From meals and naps to fun activities and big smiles, you'll get real-time updates, photos, and videos to keep you in the loop.

Our educators share moments and milestones throughout the day so you'll have plenty to talk about with your child on the ride home, whether it's a new book they loved or a silly game they played.

You'll also find important news, reminders, and upcoming events all in one place, so you never miss a thing. And if you ever have a question or just want to check in, you can message your child's teacher directly.

Of course, nothing beats being there in person! We love welcoming families for parent-teacher conferences, open classroom visits, and special events throughout the year. At OFLC, staying connected is easy, because you're always part of the family.

A Safe Child is a Happy Child.

From First Aid training and AED, to our biometric building, safety is number one.

Your child's safety and well-being are at the heart of everything we do at OFLC. If your child has an allergy or specific health need, we work closely with families to create individualized care plans that outline exactly how to keep them safe. Every staff member is trained to recognize allergic reactions and respond quickly, so you can feel confident that your child is always in safe hands.

To support this, we use a Digital Allergy Alert System through MyOFLC.com, which automatically compares each child's documented allergies with the lunch menu and flags any potential concerns. This system also ensures that every staff member has easy access to up-to-date allergy information for every child in their care.

Our centers are also designed with security in mind. Each building is equipped with a biometric entry system, ensuring that only authorized individuals can enter. We regularly practice emergency procedures with staff and children so everyone knows exactly what to do in case of an unexpected event.

To add another layer of protection, all of our teachers are First Aid and CPR certified, and every center is equipped with an Automated External Defibrillator (AED). Staff receive regular training updates to keep their skills sharp. Whether your child is exploring the classroom, enjoying snack time, or playing outside, we are committed to providing a safe, secure, and nurturing environment every single day.

Health & Safety Beyond Allergies

A Clean & Healthy Environment.

Your child's health and safety is our top priority. In addition to allergy-friendly environment, we implement daily sanitation procedures and high health standards across all locations.

Daily Classroom Sanitization

High-touch surfaces cleaned multiple times daily.

Strict Handwashing Policies

Routines that promote hygiene and illness prevention.

Emergency Preparedness

All staff utilizes our Allergy Matching System, and are trained in First Aid, CPR, AED, and evacuation procedures.

Health Screenings & Wellness Checks

Ongoing monitoring to keep our classrooms safe.

By maintaining rigorous health protocols, we ensure a safe and thriving learning environment for every child.

We Believe in **Our Future**, and so do the parents who trust us.

My twins have been with OFLC for over 3 years and we can't say enough positive things about the team. They've done a wonderful job of curating a curriculum that fosters learning and exploration in a safe and caring environment. From the teachers to the administrators, OFLC has been dedicated to providing my kids a home away from home and we're so thankful. I highly recommend this daycare.

My kids have attended multiple centers and OFLC is unquestionably an outstanding childcare center. They go above and beyond with everything, I am always in the loop, and Jess is a true gem and great at what she does. It's hard to find good childcare but this is it!

We have been at OFLC since my daughter was 13 weeks old (she's now 2) and have nothing but great things to say about our experience. We've transitioned into a few different classrooms and at each stop, her teachers have been wonderful and loving, treating her as though she were their own. Along the way, she's been cared for by Desiree, Robin, Betty and others - each with their own personality and style, but all equally as wonderful. We love that there is a large indoor gym (rare in the Boston area), as well as an outdoor playground in the warmer months, and feel like she's constantly learning and growing each day.

We can't say enough good things about OFLC Commonwealth.

As first-time parents, we really had no idea what to expect when our son started daycare. Every single teacher and staff member has been wonderful and very patient with our learning curve. They use the Procure app to send photos & updates throughout the day, so we never are left wondering when he last had a diaper change or how long he napped for. They frequently take the kids to the playground across the street, and when they weather isn't great the kids can still run around inside the large indoor auditorium. We also liked that they have a security system in place.

Overall the best thing about OFLC is the teachers, they are so kind, patient and very communicative. (Especially Ms Grace and Ms Jessica) Really glad we found this place.

Dad's review - they are really really good. Our baby boy is showered in love and affection the moment we walk through those doors. They do a ton of enriching activities that we would never think to do at home - art, music, recently even baby yoga. Our baby boy loves going to daycare we feel really fortunate to have found OFLC in Brighton.

Our son has attended daycare at the Brighton location since January 2023 when he turned 7 months old and we cannot be happier with the care, attention, and love provided to him by the wonderful caregivers here. He loved being in Toddler 1 with Mr. Sam and Miss Zoria - now he's graduated to Toddler 2 with Miss Laura and Miss Margarita and continues to thrive under their care and guidance. He also loves hanging out with Miss Sorianny and Miss Veronica. We intend to keep him here for at least another year and up to preschool. Highly recommend this facility to any parents in the Brighton community!

OFLC was amazing for our son! The staff were beyond supportive, they listened to our needs as parents as well as my child's needs, they communicated effectively and often, and I felt that my son was safe, supported and challenged daily. The Toddler 1 staff were incredible from day one and treated my child like their own! Thank you OFLC-Natick and the Toddler 1 staff!

I can't thank the team enough at OFLC! The communication, friendliness, and care has been just unbelievable. We have felt so at ease from the minute we had our first phone call until having our daughter started. I highly recommend OFLC and they have a family feel that is so important. The teachers are just so amazing and treat our daughter like their own. Look no further then here!

Growing Together, Every Step of the Way.

We know that children thrive when families and schools work hand in hand. That's why we've created a warm, welcoming community where parents feel connected and involved every step of the way.

Throughout the year, we bring families together for seasonal celebrations, parent appreciation events, and graduation ceremonies. These are special moments that make childhood even more magical. We also host parent workshops and coffee chats, giving families a chance to learn, share, and connect with each other.

For those who love to be hands-on, there are plenty of ways to get involved. Whether it's reading a story to the class, leading a fun activity, or helping with special events, we love having parents as part of the learning experience. And with Procure Connect, staying in the loop is easy. You will get real-time updates on meals, naps, and daily activities, so you never miss a moment.

Celebrating Every Child.

Every Culture.

Every Story.

At Our Future Learning Center, we embrace the beautiful diversity of our children, families, and community. Every child who walks through our doors is valued, respected, and celebrated for who they are. Our classrooms are filled with stories, activities, and experiences that introduce little learners to different cultures, traditions, and languages; these spark curiosity and appreciation for the world around them.

We believe that learning happens not just in the classroom but in the connections we build with each other. That's why we invite families to share their traditions, celebrations, and experiences, creating a rich, inclusive environment where every child sees themselves reflected and every family feels a sense of belonging. At OFLC, we don't just welcome diversity, we cherish it. Because here, every child belongs.
